Proposed Third Quarter 2019 Universal Service Contribution Factor

CC Docket No. 96-45

In this Public Notice, the Office of Managing Director (OMD) announces that the proposed universal service contribution factor for the third quarter of 2019 will be 0.244 or 24.4 percent.¹

Rules for Calculating the Contribution Factor

Contributions to the federal universal service support mechanisms are determined using a quarterly contribution factor calculated by the Federal Communications Commission (Commission).² The Commission calculates the quarterly contribution factor based on the ratio of total projected quarterly costs of the universal service support mechanisms to contributors’ total projected collected end-user interstate and international telecommunications revenues, net of projected contributions.³

USAC Projections of Demand and Administrative Expenses

Pursuant to section 54.709(a)(3) of the Commission’s rules,⁴ the Universal Service Administrative Company (USAC) submitted projections of demand and administrative expenses for the third quarter of 2019.⁵ Accordingly, the projected demand and expenses are as follows:

¹ See 47 C.F.R. § 54.709(a).
² See id.
³ See 47 C.F.R. § 54.709(a)(2).
⁴ See 47 C.F.R. § 54.709(a)(3).

USAC Projections of Industry Revenues

USAC submitted projected collected end-user telecommunications revenues for July through September 2019 based on information contained in the Third Quarter 2019 Telecommunications Reporting Worksheet (FCC Form 499-Q). The amount is as follows:

Total Projected Collected Interstate and International End-User Telecommunications Revenues for Third Quarter 2019: $11.483305614 billion.

Adjusted Contribution Base

To determine the quarterly contribution base, we decrease the third quarter 2019 estimate of projected collected interstate and international end-user telecommunications revenues by the projected revenue requirement to account for circularity and decrease the result by one percent to account for uncollectible contributions. Accordingly, the quarterly contribution base for the third quarter of 2019 is as follows:

Adjusted Quarterly Contribution Base for Universal Service Support Mechanism

Third Quarter 2019 Revenues - Projected Revenue Requirement - 1%

⁷ USAC Filing for Third Quarter 2019 Contribution Base at 4.
($11.483306 \text{ billion} - $2.228690 \text{ billion}) \times 0.99

Proposed Circularity Discount Factor

The Commission also has directed OMD to account for contribution factor rounding when calculating the circularity discount factor. Accordingly, the proposed circularity factor for the second quarter of 2019 is as follows:

0.196552

Conclusion

If the Commission takes no action regarding the projections of demand and administrative expenses and the proposed contribution factor within the 14-day period following release of this Public Notice, they shall be deemed approved by the Commission. USAC shall use the contribution factor to calculate universal service contributions for the third quarter of 2019. USAC will reduce each provider’s contribution obligation by a circularity discount approximating the provider’s contributions in the upcoming quarter. USAC includes contribution obligations less the circularity discount in invoices sent to contributors. Contribution payments are due on the dates shown on the invoice. Contributors will pay interest for each day for which the payments are late. Contributors failing to pay contributions in a timely fashion may be subject to the enforcement provisions of the Communications Act of 1934, as amended, and any other applicable law. In addition, contributors may be billed by USAC for reasonable costs of collecting overdue contributions.

We also emphasize that carriers may not mark up federal universal service line-item amounts above the contribution factor. Thus, carriers may not, during the third quarter of 2019, recover through

---

9 Id.

10 The proposed circularity discount factor = 1 + [(unadjusted circularity discount factor – 1) * (unadjusted contribution factor / proposed contribution factor)]. The proposed circularity discount factor is calculated in a spreadsheet program, which means that internal calculations are made with more than 15 decimal places.

11 See 47 C.F.R. § 54.709(a)(3).

12 USAC will calculate each individual contributor’s contribution in the following manner: (proposed contribution factor * contributor’s projected collected revenues) – (proposed circularity discount factor * proposed contribution factor * contributor’s projected collected revenues).

13 See 47 C.F.R. § 54.713.

14 See 47 C.F.R. § 54.712.
a federal universal service line item an amount that exceeds 24.4 percent of the interstate telecommunications charges on a customer’s bill.

In addition, under the limited international revenues exception (LIRE) in section 54.706(c) of the Commission’s rules, a contributor to the universal service fund whose projected collected interstate end-user telecommunications revenues comprise less than 12 percent of its combined projected collected interstate and international end-user telecommunications revenues shall contribute based only on projected collected interstate end-user telecommunications revenues, net of projected contributions.\textsuperscript{15} The rule is intended to exclude from the contribution base the international end-user telecommunications revenues of any entity whose annual contribution, based on the provider’s interstate and international end-user telecommunications revenues, would exceed the amount of its interstate end-user revenues.\textsuperscript{16} The proposed contribution factor exceeds 12 percent, which we recognize could result in a contributor being required to contribute to the universal service fund an amount that exceeds its interstate end-user telecommunications revenue. Should a contributor face this situation, the contributor may petition the Commission for waiver of the LIRE threshold.\textsuperscript{17}

\textsuperscript{15} See 47 C.F.R. § 54.706.

\textsuperscript{17} Generally, the Commission’s rules may be waived for good cause shown. 47 C.F.R. § 1.3. The Commission may exercise its discretion to waive a rule where the particular facts make strict compliance inconsistent with the public interest. Northeast Cellular Telephone Co. v. FCC, 897 F.2d 1164, 1166 (D.C. Cir. 1990) (Northeast Cellular). In addition, the Commission may take into account considerations of hardship, equity, or more effective implementation of overall policy on an individual basis. WAIT Radio v. FCC, 418 F.2d 1153, 1159 (D.C. Cir. 1969); Northeast Cellular, 897 F.2d at 1166. Waiver of the Commission’s rules is therefore appropriate only if special circumstances warrant a deviation from the general rule, and such deviation will serve the public interest. Northeast Cellular, 897 F.2d at 1166; 47 C.F.R. § 54.802(a).
