SIZE PROJECTIONS FOR SECOND QUARTER 2020**

INTRODUCTION

The Universal Service Administrative Company (USAC) hereby submits the federal Universal Service Support Mechanisms fund size and administrative cost projections for the second quarter of calendar year 2020 (2Q2020), in accordance with Section 54.709 of the Federal Communications Commission’s (FCC or Commission) rules.¹

USAC is the not-for-profit corporation responsible for administering the federal Universal Service Fund (USF) and the following Universal Service Support Mechanisms (also referred to as “Support Mechanisms” or “Programs”): High Cost, Low Income, Rural Health Care, and Schools and Libraries.² USAC also performs the billing, collection, and disbursement functions for the Support Mechanisms.³

Upon approval of the quarterly funding requirements for the Support Mechanisms, the projected administrative expenses, and the submission of the contribution base amount, the Commission will establish a quarterly contribution factor. USAC will bill USF contributors on a monthly basis for their individual obligations based on the approved contribution factor, collect amounts owed from contributors, and distribute funds to eligible recipients based on the schedules filed herein.⁴

PROJECTION***

ADMINISTRATIVE EXPENSES

Section 54.709(a)(3) of the Commission's rules requires USAC to submit its projected quarterly budget at least 60 days prior to the start of the quarter.⁵ USAC includes any costs that can be directly attributed to the High Cost, Low Income, Rural Health Care, and Schools and Libraries Support Mechanisms in the projected administrative expenditures of each mechanism. USAC's remaining joint and common costs, including costs associated with the billing, collection, and disbursement of funds, are included in the projected administrative expenditures of the respective support mechanisms based on USAC's methodology for allocating costs submitted to the Commission.⁶

USAC projects a consolidated budget of \$60.91 million for 2Q2020. Direct costs for all support mechanisms total \$36.95 million and are listed for each mechanism in the chart provided below. Joint and common costs (including billing, collection, and disbursement activities) total \$23.96 million and are listed in the chart below based on the allocation methodology on file with the Commission.

⁵ 47 C.F.R. § 54.709(a)(3).

⁶ On January 1, 2006, USAC implemented a revised methodology for allocating joint and common costs that was filed with the Commission on October 3, 2005. *See* Letter from D. Scott Barash, USAC, to Marlene Dortch, FCC, CC Docket Nos. 97-21 *et al.* (Oct. 3, 2005) (explaining revisions to USAC's method for allocating joint and common administrative costs among the four Universal Service Support Mechanisms).

FUND ACTIVITY

Appendix M02 provides the fund size projections for 2Q2020. Appendices M03 and M04 provide 2019 year-to-date statements of fund activity on a cash and accrual basis, respectively.

EFFORTS TO PREVENT AND REDUCE IMPROPER PAYMENTS

USAC has established a foundation of processes, systems, procedures, and outreach activities to prevent or reduce “improper” payments as defined by the Improper Payments Information Act of 2002 (Pub. L. No. 107-300).⁷ USAC initiated efforts, consistent with its February 28, 2008 letter to the Commission, to identify additional measures to prevent or reduce potential improper payments and to allocate the additional resources needed to implement such measures.⁸ Commission staff directed USAC to report its progress in implementing proposed actions to prevent or reduce improper payments and to project the anticipated administrative costs of such actions on a quarterly basis.⁹

The steps initiated by USAC include additional oversight and managerial controls,

⁷ See Improper Payments Information Act of 2002, Pub. L. No. 107-300, 116 Stat 2350 (2002).

⁸ See Letter from D. Scott Barash, Acting Chief Executive Officer, USAC, to Anthony Dale, FCC Managing Director (Feb. 28, 2008) (concerning suggested additional steps to reduce or prevent improper payments).

strengthened audit and investigative techniques, improved information technology tools, and more effective use of outreach resources. In 2Q2020, USAC will continue efforts identified and initiated during the previous years. These efforts include, but are not limited to:

1. *Assessing and strengthening USAC's internal controls*

USAC's Internal Controls Team is responsible for testing key controls of USAC's processes. USAC's Audit and Assurance Division (AAD) has a Strategic Audit function that is responsible for assessing business operations. USAC's Enterprise Portfolio Management Office (EPMO) tracks the completion of the remediation activities and corrective action plans for all control deficiencies developed in response to internal and external testing results. EPMO established a framework for an Enterprise Risk Management (ERM) program at USAC. The EPMO, Internal Controls, and AAD groups meet with USAC Leadership quarterly through the Risk Management Council to report on risk-related functions in the enterprise.

2. *Strengthening audit and investigative techniques*

The FCC's Office of Managing Director (OMD) directed USAC to implement an assessment program to determine the rate of improper payments made to universal service support mechanism beneficiaries to support the FCC's reporting requirements under the Improper Payments Elimination and Recovery Improvement Act (IPERIA)¹⁰ and to assess universal service support mechanism beneficiary compliance with FCC regulations.¹¹ USAC successfully implemented an assessment program, known as the Payment Quality Assurance (PQA) Program, in August 2010.

¹⁰ See Improper Payments Elimination and Recovery Improvement Act of 2012, Pub L. No. 112-248, 126 Stat. 2390 (2013). On January 10, 2013, the Improper Payment Elimination and Recovery Improvement Act (IPERIA) was signed into law.

¹¹ Letter from Steven Van Roekel, FCC Managing Director, to Scott Barash, USAC Acting Chief Executive Officer (Feb. 12, 2010) (discussing the implementation of the Improper Payments Information Act of 2002 (IPIA) assessment program and companion audit program). Although not subject to IPERIA, USF contributor compliance with FCC regulations is assessed as part of the Beneficiary and Contributor Audit Program (BCAP).

Universal Service Administrative Company 2Q2020 Fund Size Projections

The FCC also directed USAC to establish a comprehensive support mechanism Beneficiary and USF contributor audit program, which is known as BCAP (“Beneficiary and Contributor Audit Program”). The BCAP plans are designed to:

- Assess beneficiaries’ and contributors’ compliance with FCC Rules;
- Identify correct contribution obligations (for contributor audits);
- Identify overpayments that must be recaptured (for beneficiary audits);
- Deter waste, fraud and abuse; and
- Identify FCC Rules that may require the attention of USAC or FCC management.

In 2013, AAD and OMD staff developed an audit plan for fiscal years 2014 and 2015 that was designed to select entities at random with the goal of concentrating on entities receiving larger federal USF disbursements. In 2015, AAD, OMD and the FCC’s Wireline Competition Bureau (WCB) developed audit plans for fiscal years 2016 to 2018 that were designed to focus audit resources on USF participants with the highest risk of noncompliance with FCC rules. In 2018, AAD, OMD and WCB developed an audit plan for fiscal year 2019 that incorporates a hybrid approach for selecting beneficiaries and contributors for audit. The selection methodology is based on a combination of high risk factors, high dollar, random selection and targeted entities selected as a result of whistleblower allegations or FCC request.

The status of all audits in process as of December 31, 2019 is summarized in the table below.

**Universal Service Administrative Company 2Q2020 Fund Size
Projections**

Audit Status As of December 31, 2019				
Program	Announced	Fieldwork	Reporting	Total
Contributor Revenue	0	6	2	8
High Cost	0	14	17	31
Low Income	0	11	11	22
Schools & Libraries	0	40	31	71
Rural Health Care	0	5	2	7
Total	0	76	63	139

As noted above, USAC implemented the PQA Program in 2010 to test improper payments and compliance with FCC regulations. The testing results for the two most recent years are noted below. Using a statistically drawn sample, support mechanism disbursements are selected each month and reviewed to verify that payments were made at the correct amount in accordance with FCC rules. The table below summarizes the error rates noted and the improper payment amounts reported for fiscal years (FYs) 2019 and 2018:

	FY 2019		FY 2018	
	Estimated Improper Payment Rate	Estimated Improper Payment Amount (<i>millions</i>)	Estimated Improper Payment Rate	Estimated Improper Payment Amount (<i>millions</i>)
High Cost	0.01%	\$0.65	0.03%	\$1.20
Low Income	9.32%	\$108.92	18.47%	\$227.02
Schools & Libraries	6.33%	\$139.67	2.59%	\$67.99
Rural Health Care	11.46%	\$34.19	N/A	N/A

Payments made from the Rural Health Care Program were not tested as the Rural Health Care Program was deemed low risk for FY 2018; however, the Rural Health Care Program was subject to PQA testing for FY 2019. The sample size and status of FY 2020 PQA assessments in process as of January 10, 2020 are summarized in the table below.

**Universal Service Administrative Company 2Q2020 Fund Size
Projections**

PQA Testing Status As of January 10, 2020				
Program	Sample Size	Announced	In Process	Completed
High Cost	180	0	0	0
Low Income	250	66	66	0
Schools & Libraries	375	314	314	0
Rural Health Care	400	88	88	0
Total	1,205	468	468	0

3. Improving information technology tools

USAC has undertaken a systematic review of the capabilities of its current financial systems to determine whether additional functionality can be added to improve financial operations, and has made several improvements to its financial systems and is working on other systems enhancement initiatives.

4. Expanding and enhancing outreach and education

In the last quarter, USAC conducted extensive outreach, including:

- The High Cost Program quarter focused on educating carriers about new High Cost Universal Broadband (HUBB) portal functionality to let them edit and/or delete certified broadband deployment data in bulk and helping carriers prepare for the annual March 1 HUBB filing deadline. High Cost also conducted extensive user testing with Connect American Fund (CAF) II and early adopter carriers to inform the design of the new system to implement the Performance Measures Order, which will require carriers to conduct speed and latency testing of CAF-funded networks. In addition, the program created new web pages to explain the Performance Measures Order and the most recent Rate of Return Reform Order, along with new pages for four new funds created or updated by the Rate of Return Reform Order;

Universal Service Administrative Company 2Q2020 Fund Size Projections

- The Rural Health Care Program conducted outreach to program participants regarding the upcoming 2020 Funding Year, focusing specifically on Request for Services best practices. The team did extensive outreach, including a month long email campaign, for the December 31 invoicing deadline. The team also conducted outreach regarding the updated website and the release of FCC Public Notice DA 19-1253;
- Schools and Libraries Program outreach included monthly and mid-month stakeholder calls to participants and tribal audiences, conducting one webinar for applicant and service provider audiences, completing the 2019 E-rate Applicant Training and the 2019 E-rate Tribal Training series, posting the 2019 Online Training Series for applicants, and providing guidance to E-rate service providers regarding the FCC Form 474 moving to E-File and using Multi-Factor Authentication (MFA) to log in;
- The Lifeline Program released the National Verifier application program interfaces (APIs), allowing service providers to integrate their own enrollment platforms directly with the National Verifier. Lifeline also released the Representative Accountability Database (RAD) to production for optional use, allowing service providers to begin linking National Lifeline Accountability Database (NLAD) user accounts and API accounts to Representative IDs; and
- The Contributors team conducted outreach informing service providers to update their FCC Form 498 with the business activity type in accordance with the Data Act. In addition, the team conducted outreach to remind filers to submit the FCC Form 499-Q and provided general guidance for filers through the quarterly newsletter and webinars.

Universal Service Administrative Company 2Q2020 Fund Size Projections

USAC conducted 25 webinars: three monthly webinars for Lifeline carriers, nine webinars for National Verifier service providers, two webinars on Lifeline recertification, three webinars on the NV Carrier API for service providers interested in utilizing the APIs, one webinar for Schools and Libraries audiences, three webinars for Rural Health Care participants, two webinars for High Cost audiences, and two webinars for Contributors. USAC conducted nine in-person trainings for participants in the E-rate Program, including three trainings for Tribal participants. The Lifeline Program held one consumer advocate training on the National Verifier and the High Cost Program delivered presentations at two industry conferences, including the NECA Expo in Denver.

FUNDING REQUIREMENTS

HIGH COST SUPPORT MECHANISM

Appendix HC01 provides projected High Cost Support by State by Study Area for 2Q2020. HC01 also provides the projected amount of individual company support, and projected per-month amounts for the components of High Cost support that each Eligible Telecommunications Carrier (ETC)¹² may be eligible to receive. HC02 provides the total projected amount of annualized High Cost Support for 2Q2020 for each state.

CONNECT AMERICA FUND PHASE II

The FCC released an Order on June 10, 2014 adopting rules, among other things, to institute the foundation for the award of Phase II (model-based) support through a competitive bidding process in price cap areas where the price cap carrier declines the offer

of model-based support.¹³ The Order also permits price cap carriers that decline model-based support to participate in the 2016 competitive bidding process.¹⁴ On April 29, 2015, the FCC released a Public Notice announcing the offers of model-based Phase II support to price cap carriers to fund voice and broadband-capable networks in their service areas.¹⁵ The total offer is \$1.675 billion annually, for six calendar years, 2015-2020.¹⁶ Next, on June 16, 2015, the Bureau released a Public Notice announcing acceptance by Frontier Communications of model-based support for each of the 28 states it serves.¹⁷ For states where their model-based support is greater than Phase I Frozen support, Frontier elected to receive the lump sum payment associated with prior months that reflects the difference between Phase II model support and Phase I Frozen support. Finally in August 2015, the Bureau released public notices for Consolidated Communications, AT&T, CenturyTel, Inc. dba CenturyLink, Cincinnati Bell, Fairpoint Communications, Inc., Hawaiian Telecom, Inc., Micronesian, and Windstream Corporation for announcement of acceptance of model-based support.¹⁸

HIGH COST LOOP SUPPORT (INCLUDING SAFETY NET ADDITIVE AND SAFETY VALVE SUPPORT)

HCL support is calculated based on the results of the annual collection of 2012 incumbent local exchange carrier (LEC) loop cost and expense adjustment data that was submitted to the FCC and USAC on October 1, 2013.²⁶ Growth in total HCL support for rural carriers is limited under Section 54.1302 of the Commission's rules to the current level of funding adjusted yearly by the annual growth in supported rural loops.²⁷ The *Rural Task Force (RTF) Order* increased HCL support for rural carriers effective July 1, 2001.²⁸

For 2Q2020, projected HCL support is \$98.53 million, which includes \$0.18 million for SVS. Appendix HC05 provides projected monthly HCL support payments by State by Study Area for 2Q2020. Appendix HC06 displays projected SVS payments by State by Study Area for 2Q2020.

ALASKA PLAN SUPPORT

In the *Alaska Plan Order*, the FCC approved for Alaska rate-of-return carriers to receive frozen support for 10 years and be obligated to offer voice and broadband services at specified speeds to a specified number of locations while meeting certain service obligations.²⁹

For 2Q2020, projected Alaska Plan Support is \$32.08 million. Appendix HC04 provides 2Q2020 projections for Alaska Plan Support by State by Study Area.

previously known as Interstate Common Line Support (ICLS).³⁰ The FCC made modifications to modernize ICLS rules to provide support in situations where the customer no longer subscribes to traditional regulated local exchange voice service.³¹ CAF BLS will provide support for broadband-capable loops, regardless of whether the customer chooses traditional voice, bundle of voice and broadband, or only broadband.³²

For 2Q2020, CAF BLS is projected to be \$174.60 million. Appendix HC08 provides USAC's 2Q2020 projections of CAF BLS by State by Study Area and Appendix HC09 provides USAC's 2Q2020 projections of CAF BLS by State. ALTERNATIVE CONNECT AMERICA MODEL (A-CAM)

Alternative Connect America Model (A-CAM) allows carriers the option of electing a set amount of monthly support over 10 years, or remaining with a reformed version of legacy support mechanisms with CAF-BLS and HCL support.

For 2Q2020, A-CAM is projected to be \$142.91 million, of which \$51.75 million will be paid from funds available in the High Cost account. Appendix HC14 provides Alternative Connect America Cost Model Support Projected by State by Study Area for 2Q2020.

REVISED A-CAM

On December 13, 2018, the FCC released the *December 2018 Rate-of-Return Order*, which authorized revised model offers of up to \$200.00 per location to all existing A-CAM carriers.³³ The FCC released the revised support amounts via Public Notice.³⁴

For 2Q2020, total frozen high cost support for price cap carriers is estimated to be \$26.12 million. Appendix HC07 provides frozen high cost support for price cap carriers by State by Study Area for 2Q2020.

COMPETITIVE ELIGIBLE TELECOMMUNICATIONS CARRIERS

The *USF/ICC Transformation Order* transitioned existing Competitive Eligible Telecommunications Carriers (CETCs) support to the CAF over a five-year period beginning January 1, 2012.³⁷ For the transition, the FCC set each CETC's baseline support at its total 2011 support in a given study area, or an amount equal to 3,000 times the number of reported lines as of year-end 2011, whichever was lower.³⁸ That monthly baseline amount

LIFELINE SUPPORT

ETCs providing Lifeline support are entitled to receive funding for the waiver of charges and reduced rates provided to qualified low-income subscribers.⁴⁴ In the *Lifeline Reform Order*, all non-tribal Lifeline support was set to a flat rate of \$9.25 for all subscribers.⁴⁵ As established in the *Tribal Order*, tribal support makes available each month up to an

For 2Q2020, USAC projects \$198.61 million will be required for Lifeline support.

LINK-UP SUPPORT

Link-Up support is available for ETCs that provide support on tribal lands, but is limited to those ETCs receiving High Cost Program support.⁴⁸ ETCs may claim a 100 percent reduction up to \$100 of the customary charge for commencing telephone service for a single telecommunication connection at a subscriber's principal place of residence.⁴⁹

For 2Q2020, USAC projects that \$0.06 million will be required for Link-Up support.

LOW INCOME SUPPORT MECHANISM SUMMARY

The estimated 2Q2020 Low Income Support Mechanism funding requirements are projected as follows: \$198.61 million for Lifeline and \$0.06 million for Link-Up, resulting in total of \$198.67 million.

The total fund requirement of \$198.67 million is adjusted as follows: decreased by prior period adjustment of \$216.42 million⁵⁰ and increased for administrative costs of \$17.75 million; resulting in a total projected 2Q2020 funding requirement for the Low Income Support Mechanism of \$0.00 million. Funding Year	Amounts in Millions ^{62, 63}
2009	\$0.57
2010	\$0.01
2013	\$0.01
2014	\$0.08
2015	\$12.14
2016	\$19.80
2017	\$50.61
Funds Available to Carry-Forward	\$83.22

For Funding Year 2019, USAC will collect an amount equal to the Rural Health Care Funding Cap of \$594.07 million. This amount is inclusive of administrative costs.

RURAL HEALTH CARE SUPPORT MECHANISM SUMMARY

The 2Q2020 Rural Health Care Support Mechanism collection requirement of \$148.54 million is calculated as follows:

	Amounts in Millions	Calculation
Funding Year 2019 Cap	\$594.07	A
Funds Previously Collected	(\$445.53)	B
Remaining Funding Year 2019 Collection Requirement	\$148.54	A-B=C

The amount includes collection requirements for the Telecommunications Program, the Healthcare Connect Fund, and administrative costs. The collection requirement of \$148.54 million is adjusted as follows: decreased by the prior period adjustment of \$1.67

⁶² Carry forward amounts in older funding years are lower because dollars were previously released.

⁶³ The projected amount to carry-forward is based on funds available as of March 31, 2019. In preceding tables, the estimated remaining balances for funding years are based on funds available as of December 31, 2019 after applying unused funds announced in the *Rural Health Care June 2019 Public Notice*.

FCC DECISIONS AND UNUSED FUNDS

In a series of actions from December 1999 through December 2002, the Commission used a net total of \$477.16 million of undisbursed Funding Year 1998 Schools and Libraries Support Mechanism funds to reduce USF collection requirements. Consistent with the Commission’s direction in the *Schools and Libraries First Report and Order*, a total of \$852.12 million of undisbursed Funding Years 1999 and 2000 collections were used to stabilize USF contributions and offset collections for 3rd Quarter 2002 (3Q2002), 4th Quarter 2002 (4Q2002), and 1st Quarter 2003 (1Q2003).⁶⁷

On October 1, 2004, as required by the FCC, USAC changed the accounting methodology for the USF to generally accepted accounting principles for federal agencies.⁶⁸

Commission staff subsequently determined that Funding Commitment Decision Letters

(FCDLs) for the Schools and Libraries Support Mechanism are to be treated as “obligations” for federal budgetary accounting purposes and subject to the requirements of the Anti-deficiency Act (ADA).⁶⁹ The ADA generally requires that sufficient unobligated resources be available before an obligation can be incurred. Congress exempted the USF from the requirements of the ADA through December 31, 2019.⁷⁰

To reduce the USF cash reserve that has accumulated primarily because the structure of the program necessarily results in significant time lags between the commitments and actual disbursements while at the same time retaining the ability of the USF to satisfy all outstanding commitments based on historic disbursement patterns, the Commission applied a total of \$550 million of the undisbursed USF balance from prior years against Schools and Libraries Support Mechanism demand in 2004. The Commission applied \$200 million of the cash balance in both Second Quarter and Third Quarter 2004, and \$150 million in Fourth Quarter 2004.⁷¹

The Commission subsequently authorized the recovery by adjusting subsequent funding years for these changes as follows: 2010: \$140M; 2011: \$250M; 2012: \$40M; and 2013: \$120M.⁷²

In the *Schools and Libraries Third Report and Order*, the Commission amended its rules to allow unused funds from prior Funding Years to be carried forward on an annual basis in the second quarter of each calendar year for use in the next full Funding Year.⁷³ The Commission required USAC to file quarterly estimates of unused funds from prior Funding Years in submitting its projection of Schools and Libraries Support Mechanism demand for the upcoming quarter. The Commission modified the schedule to implement the process for Funding Year 2003 and directed USAC to carry-forward \$420 million of unused prior year funds for use in Funding Year 2003.⁷⁴ In accordance with the *Schools and Libraries Third Report and Order*, the Commission announced that \$150 million in unused funds from Funding Year 2001 would be carried forward to increase disbursements to schools and libraries in Funding Year 2004.⁷⁵

On June 11, 2007, the Commission instructed USAC to carry-forward \$650 million in unused funds to Funding Year 2007.⁷⁶ The funds were carried forward from Funding Years 2001, 2002, 2003, and 2004 in the amount of \$50 million, \$300 million, \$150 million, and \$150 million, respectively. On June 23, 2008, the Commission instructed USAC to carry-forward \$600 million in unused funds to Funding Year 2008.⁷⁷ The funds were carried forward from Funding Years 2002, 2003, and 2004 in the amount of \$150 million, \$200 million, and \$250 million, respectively. On July 31, 2009, the Commission instructed USAC

concerning the necessity and timing of any recovery of this \$550 million. In October of 2014, the Commission authorized the recovery of these funds from subsequent fund years. See *Carryover of Unused Funds for Funding Year 2004*, CC Docket No. 02-6, Public Notice, 19 FCC Rcd 20420 (2004).

On August 22, 2011, the Commission instructed USAC to carry-forward an additional \$250 million in unused funds from Funding Year 2008 to Funding Year 2010.⁸⁰ The total funds carried forward to Funding Year 2010 amount to \$1,150 million. The Commission further instructed USAC to carry-forward \$850 million in unused funds from Funding Years 2003, 2004, 2005, 2006, 2007, 2008, and 2009 to Funding Year 2011.⁸¹ The funds were carried-forward from Funding Years 2003, 2004, 2005, 2006, 2007, 2008, and 2009 in the amount of \$20 million, \$50 million, \$120 million, \$115 million, \$275 million, \$140 million, and \$130 million, respectively. respectively. On May 16, 2013, the FCC authorized USAC to carry-forward \$450 million in unused funds from prior years to increase Funding Year 2013 disbursements in excess of the \$2.38 billion annual cap.⁸³ The funds were carried forward from Funding Years 2007, 2008, 2009 and 2010 in the amount of \$20 million, \$150 million, \$150 million and \$130 million, respectively. On May 2, 2014, the FCC authorized USAC to carry-forward \$200 million in unused funds from prior years to increase Funding Year 2014 disbursements in excess of the \$2.41 billion annual cap.⁸⁴ The funds were carried forward from Funding Years 2002, 2007, 2009 and 2010 in the amount of \$40 million, \$30 million, \$70 million and \$60 million, respectively.

In the *Schools and Libraries Sixth Report and Order*, the Commission amended its rules to increase the cap on program funding by indexing the cap to inflation.⁸⁵ The Commission calculates this annual increase by using the percentage increase in the gross domestic product chain type price index (GDP-CPI) from the previous year and rounds this to the nearest 0.1 percent. The Commission found that the GDP-CPI increased 0.9 percent between 2008 and 2009. Using this analysis, the Commission set the cap for Funding Year 2010 to \$2,270,250,000. On August 5, 2011, the Commission set the cap for Funding Year 2011 at \$2,290,682,250.⁸⁶ On November 18, 2011, the FCC ordered USAC to include the inflation adjustments to the E-rate cap in the Schools and Libraries Support Mechanism demand projection.⁸⁷ On May 18, 2012, the Commission set the cap for Funding Year 2012 to

On June 6, 2016, USAC submitted an estimate of demand for the E-rate program for Funding Year 2016 (July 1, 2016 to September 30, 2017) of \$3.609 billion, which includes estimated demand for Category One services (i.e., telecommunications, telecommunications services and Internet access) of \$2.330 billion and of \$1.279 billion for Category Two services (i.e., internal connections, basic maintenance of internal connections and managed internal broadband services).

On June 8, 2016, the FCC authorized USAC to carry forward \$1,900 million in unused funds from prior years to fund Funding Year 2016 disbursements up to the \$3.609 billion demand. The funds were carried-forward from Funding Years 2004, 2006, 2008, 2010, 2011, 2012, 2013, 2014 and 2015 in the amount of \$1.69 million; \$2.00 million; \$7.00 million; \$4.31 million; \$17.00 million; \$540.00 million; \$850.00 million; \$290 million; and \$188.00 million, respectively.

The FCC directed USAC to fully fund eligible Category One services under the new cap. The FCC also directed USAC to fully fund eligible Category Two services, first using the unused \$1.90 billion in E-rate funds from prior years, and then using any additional funds needed under the new cap to fully meet demand.

On May 24, 2017, the FCC authorized USAC to carry forward \$1,200.24 million to Funding Year 2017 from prior Funding Years as follows: 2014: \$215.04 million; 2015: \$561.88 million; and 2016: \$423.32 million.

The FCC directed USAC to fully fund eligible Category One and Category Two requests, using \$1.2 billion in E-rate funds unused from previous years, and any additional funds needed under the current cap to fully meet demand for such services.

On August 17, 2018, the FCC authorized USAC to carry forward \$1,200.00 million to Funding Year 2018 from prior Funding Years as follows, 1998: \$0.39 million; 2001: \$2.31 million; 2008: \$3.12 million; 2012: \$10.87 million; 2013: \$11.75 million; 2015: \$97.51 million; 2016: \$597.27 million; and 2017: \$476.78 million.

The following sections provide information regarding the use of funds for each funding year, including adjustments made by the Commission and projections of unused funds as required by Commission rules.

Funding Year 1998 True-Up

As of December 31, 2019, \$1,398.95 million of Funding Year 1998 support has been disbursed. The Commission, in a series of actions, has directed USAC to move outstanding contingency funds to subsequent years in an effort to utilize unused funds. On April 17, 2017, the Commission directed USAC to reserve 100 percent for pending appeals.⁹⁴ Given these requirements, USAC estimates that (\$0.08) million of Funding Year 1998 funds are available to carry-forward. The estimated Funding Year 1998 balance is based on the following:

close adjustments).¹¹⁷ In consultation with the FCC, USAC projected that a total of \$1,000.00 million was available to carry-forward to Funding Year 2019 from prior Funding Years as follows, 1998: \$0.02 million; 1999: \$4.67 million; 2000: \$8.72 million; 2008: \$4.69 million; 2009: \$15.07 million; 2010: \$22.33 million; 2011: \$2.96 million; 2012: \$19.83 million; 2013: \$2.64 million; 2014: \$10.51 million; 2015: \$68.12 million; 2016: \$213.53 million; 2017: \$385.63 million; and 2018: \$241.28 million. Based on the estimated demand of \$2,596.61 million, and funds carried forward of \$1,000.00 million, the collections requirement for Funding Year 2019 is \$1,596.61 million. The 2Q2020 collection requirement of \$399.15 million represents one quarter of demand for Funding Year 2019.

The net fund requirement of \$399.15 million is adjusted as follows: decreased by the prior period adjustments of \$4.97 million¹¹⁸ and increased by \$21.41 million for administrative expenses; resulting in a total projected 2Q2020 funding requirement for the Schools and Libraries Support Mechanism of \$415.59 million.

¹¹⁷ See Letter from Catriona Ayer, Vice President Schools and Libraries Division, USAC, to Kris Monteith, Bureau Chief, Wireline Competition Bureau, FCC, CC Docket No. 02-6 (Apr. 1, 2019).

¹¹⁸ Prior period adjustments reconcile projections to actual results and include adjustments for billings, interest income, and bad debt.
