**FEDERAL UNIVERSAL SERVICE SUPPORT MECHANISMS FUND
SIZE PROJECTIONS FOR FOURTH QUARTER 2020**

INTRODUCTION

The Universal Service Administrative Company (USAC) hereby submits the federal Universal Service Support Mechanisms fund size and administrative cost projections for the fourth quarter of calendar year 2020 (4Q2020), in accordance with Section 54.709 of the Federal Communications Commission's (FCC or Commission) rules.¹

USAC is the not-for-profit corporation responsible for administering the federal Universal Service Fund (USF) and the following Universal Service Support Mechanisms (also referred to as "Support Mechanisms" or "Programs"): High Cost, Low Income, Rural Health Care, and Schools and Libraries.² USAC also performs the billing, collection, and disbursement functions for the Support Mechanisms.³

Upon approval of the quarterly funding requirements for the Support Mechanisms, the projected administrative expenses, and the submission of the contribution base amount, the Commission will establish a quarterly contribution factor. USAC will bill USF contributors on a monthly basis for their individual obligations based on the approved contribution factor, collect amounts owed from contributors, and distribute funds to eligible recipients based on the schedules filed herein.⁴

PROJECTION***

ADMINISTRATIVE EXPENSES

Section 54.709(a)(3) of the Commission's rules requires USAC to submit its projected quarterly budget at least 60 days prior to the start of the quarter.⁵ USAC includes any costs that can be directly attributed to the High Cost, Low Income, Rural Health Care, and Schools and Libraries Support Mechanisms in the projected administrative expenditures of each mechanism. USAC's remaining joint and common costs, including costs associated with the billing, collection, and disbursement of funds, are included in the projected administrative expenditures of the respective support mechanisms based on USAC's methodology for allocating costs submitted to the Commission.⁶

USAC projects a consolidated budget of \$59.38 million for 4Q2020. Direct costs for all support mechanisms total \$33.48 million and are listed for each mechanism in the chart provided below. Joint and common costs (including billing, collection, and disbursement activities) total \$25.90 million and are listed in the chart below based on the allocation methodology on file with the Commission.

⁵ 47 C.F.R. § 54.709(a)(3).

⁶ On January 1, 2006, USAC implemented a revised methodology for allocating joint and common costs that was filed with the Commission on October 3, 2005. *See* Letter from D. Scott Barash, USAC, to Marlene Dortch, FCC, CC Docket Nos. 97-21 *et al.* (Oct. 3, 2005) (explaining revisions to USAC's method for allocating joint and common administrative costs among the four Universal Service Support Mechanisms).

FUND ACTIVITY

Appendix M02 provides the fund size projections for 4Q2020. Appendices M03 and M04 provide 2020 year-to-date statements of fund activity on a cash and accrual basis, respectively.

EFFORTS TO PREVENT AND REDUCE IMPROPER PAYMENTS

USAC has established a foundation of processes, systems, procedures, and outreach activities to prevent or reduce “improper” payments as defined by the Improper Payments Information Act of 2002 (Pub. L. No. 107-300).⁷ USAC initiated efforts, consistent with its February 28, 2008 letter to the Commission, to identify additional measures to prevent or reduce potential improper payments and to allocate the additional resources needed to implement such measures.⁸ Commission staff directed USAC to report its progress in implementing proposed actions to prevent or reduce improper payments and to project the anticipated administrative costs of such actions on a quarterly basis.⁹

The steps initiated by USAC include additional oversight and managerial controls,

⁷ See Improper Payments Information Act of 2002, Pub. L. No. 107-300, 116 Stat 2350 (2002).

⁸ See Letter from D. Scott Barash, Acting Chief Executive Officer, USAC, to Anthony Dale, FCC Managing Director (Feb. 28, 2008) (concerning suggested additional steps to reduce or prevent improper payments).

strengthened audit and investigative techniques, improved information technology tools, and more effective use of outreach resources. In 4Q2020, USAC will continue efforts identified and initiated during the previous years. These efforts include, but are not limited to:

1. *Assessing and strengthening USAC's internal controls*

USAC's Internal Controls Team is responsible for testing key controls of USAC's processes. USAC's Audit and Assurance Division (AAD) has a Strategic Audit function that is responsible for assessing business operations. USAC's Office of the Chief Administrative Officer (OCAO) tracks the completion of the remediation activities and corrective action plans for all control deficiencies developed in response to internal and external testing results. OCAO established a framework for an Enterprise Risk Management (ERM) program at USAC. The OCAO, Internal Controls, and AAD groups meet with USAC Leadership quarterly through the Risk Management Council to report on risk-related functions in the enterprise.

2. *Strengthening audit and investigative techniques*

The FCC's Office of Managing Director (OMD) directed USAC to implement an assessment program to determine the rate of improper payments made to universal service support mechanism beneficiaries to support the FCC's reporting requirements under the Improper Payments Elimination and Recovery Improvement Act (IPERIA)¹⁰ and to assess universal service support mechanism beneficiary compliance with FCC regulations.¹¹ USAC successfully implemented an assessment program, known as the Payment Quality Assurance (PQA) Program, in August 2010.

¹⁰ See Improper Payments Elimination and Recovery Improvement Act of 2012, Pub L. No. 112-248, 126 Stat. 2390 (2013). On January 10, 2013, the Improper Payment Elimination and Recovery Improvement Act (IPERIA) was signed into law.

¹¹ Letter from Steven Van Roekel, FCC Managing Director, to Scott Barash, USAC Acting Chief Executive Officer (Feb. 12, 2010) (discussing the implementation of the Improper Payments Information Act of 2002 (IPIA) assessment program and companion audit program). Although not subject to IPERIA, USF contributor compliance with FCC regulations is assessed as part of the Beneficiary and Contributor Audit Program (BCAP).

Universal Service Administrative Company 4Q2020 Fund Size Projections

The FCC also directed USAC to establish a comprehensive support mechanism Beneficiary and USF contributor audit program, which is known as BCAP (“Beneficiary and Contributor Audit Program”). The BCAP plans are designed to:

- Assess beneficiaries’ and contributors’ compliance with FCC Rules;
- Identify correct contribution obligations (for contributor audits);
- Identify overpayments that must be recaptured (for beneficiary audits);
- Deter waste, fraud and abuse; and
- Identify FCC Rules that may require the attention of USAC or FCC management.

In 2013, AAD and OMD staff developed an audit plan for fiscal years 2014 and 2015 that was designed to select entities at random with the goal of concentrating on entities receiving larger federal USF disbursements. In 2015, AAD, OMD and the FCC’s Wireline Competition Bureau (WCB) developed audit plans for fiscal years 2016 to 2018 that were designed to focus audit resources on USF participants with the highest risk of noncompliance with FCC rules. In 2018, AAD, OMD and WCB developed an audit plan for fiscal year 2019 that incorporates a hybrid approach for selecting beneficiaries and contributors for audit. The selection methodology is based on a combination of high risk factors, high dollar, random selection and targeted entities selected as a result of whistleblower allegations or FCC request.

The status of all audits in process as of June 30, 2020 is summarized in the table below.

**Universal Service Administrative Company 4Q2020 Fund Size
Projections**

Audit Status As of June 30, 2020				
Program	Announced	Fieldwork	Reporting	Total
Contributor Revenue	1	3	1	5
High Cost	0	12	21	33
Low Income	0	19	3	22
Schools & Libraries	1	13	48	62
Rural Health Care	8	12	4	24
Total	10	59	77	146

As noted above, USAC implemented the PQA Program in 2010 to test improper payments and compliance with FCC regulations. The testing results for the two most recent years are noted below. Using a statistically drawn sample, support mechanism disbursements are selected each month and reviewed to verify that payments were made at the correct amount in accordance with FCC rules. The table below summarizes the error rates noted and the improper payment amounts reported for fiscal years (FYs) 2019 and 2018:

	FY 2019		FY 2018	
	Estimated Improper Payment Rate	Estimated Improper Payment Amount (<i>millions</i>)	Estimated Improper Payment Rate	Estimated Improper Payment Amount (<i>millions</i>)
High Cost	0.01%	\$0.65	0.03%	\$1.20
Low Income	9.32%	\$108.92	18.47%	\$227.02
Schools & Libraries	6.33%	\$139.67	2.59%	\$67.99
Rural Health Care	11.46%	\$34.19	N/A	N/A

Payments made from the Rural Health Care Program were not tested as the Rural Health Care Program was deemed low risk for FY 2018; however, the Rural Health Care Program was subject to PQA testing for FY 2019 and FY 2020. The sample size and status of FY 2020 PQA assessments in process as of June 30, 2020 are summarized in the table below.

**Universal Service Administrative Company 4Q2020 Fund Size
Projections**

PQA Testing Status As of June 30, 2020				
Program	Sample Size	Announced	In Process	Completed
High Cost	180	180	28	152
Low Income	250	250	197	53
Schools & Libraries	375	375	357	18
Rural Health Care	400	400	341	59
Total	1,205	1,205	923	282

3. Improving information technology tools

USAC has undertaken a systematic review of the capabilities of its current financial systems to determine whether additional functionality can be added to improve financial operations, and has made several improvements to its financial systems and is working on other systems enhancement initiatives.

4. Expanding and enhancing outreach and education

In the last quarter, USAC conducted extensive outreach, including:

- The High Cost Program focused on conducting outreach to help carriers complete the Form 481 and ensure carriers complied with the FCC's Supply Chain data collection;
- The Rural Health Care Program conducted outreach to program participants regarding the 2020 Funding Year application window, shared information about the Rurality Tier Search Tool and the Telecom Program Rates Database, and supported applicants for the COVID-19 Telehealth Program;
- Schools and Libraries (E-rate) Program outreach included monthly and mid-month stakeholder calls to participants and tribal audiences and webinar events for E-rate participants of all experience levels.;
- The Lifeline Program fully launched the National Verifier in all participating states, adjusted to temporary changes based on the FCC's Lifeline waiver released in response

Projections**

to COVID-19 and helped service providers comply with mandatory use of the Representative Accountability Database (RAD); and

- The Contributors team hosted webinars to train service providers how to fill out the FCC Form 499-Q.

USAC conducted 16 webinars: three monthly webinars for Lifeline carriers, four webinars for National Verifier service providers, one webinar for consumer advocates, three webinars for Tribal participants, two webinars for Schools and Libraries audiences, one webinar for Rural Health Care participants, one webinar for High Cost audiences, and one webinar for Contributors.

CONNECT AMERICA FUND PHASE II

The FCC released an Order on June 10, 2014 adopting rules, among other things, to institute the foundation for the award of Phase II (model-based) support through a competitive bidding process in price cap areas where the price cap carrier declines the offer of model-based support.¹³ The Order also permits price cap carriers that decline model-

based support to participate in the 2016 competitive bidding process.¹⁴ On April 29, 2015, the FCC released a Public Notice announcing the offers of model-based Phase II support to price cap carriers to fund voice and broadband-capable networks in their service areas.¹⁵ The total offer is \$1.675 billion annually, for six calendar years, 2015-2020.¹⁶ Next, on June 16, 2015, the Bureau released a Public Notice announcing acceptance by Frontier Communications of model-based support for each of the 28 states it serves.¹⁷ For states where their model-based support is greater than Phase I Frozen support, Frontier elected to receive the lump sum payment associated with prior months that reflects the difference between Phase II model support and Phase I Frozen support. Finally in August 2015, the Bureau released public notices for Consolidated Communications, AT&T, CenturyTel, Inc. dba CenturyLink, Cincinnati Bell, Fairpoint Communications, Inc., Hawaiian Telecom, Inc., Micronesian, and Windstream Corporation for announcement of acceptance of model-based support.¹⁸

For 4Q2020, CAF Phase II projected support is estimated to be \$379.42 million.

Appendix HC15 provides the rate-of-return budget control projected support amounts due to the budget control mechanism for 4Q2020.

HIGH COST LOOP SUPPORT (INCLUDING SAFETY NET ADDITIVE AND SAFETY VALVE SUPPORT)

HCL support is calculated based on the results of the annual collection of 2012 incumbent local exchange carrier (LEC) loop cost and expense adjustment data that was submitted to the FCC and USAC on October 1, 2013.²⁶ Growth in total HCL support for rural carriers is limited under Section 54.1302 of the Commission's rules to the current level

Universal Service Administrative Company 4Q2020 Fund Size Projections

FUNDING YEAR 2020

On March 12, 2020, the Commission announced a funding cap for Funding Year 2020 of \$604.76 million for the Rural Health Care Program.⁵⁶ This reflects a 1.8 percent inflation-adjusted increase in the \$594.07 million cap from Funding Year 2019. The filing window for Funding Year 2020 closed on June 30, 2020.

On June 30, 2020, the FCC directed USAC to carry forward up to \$197.98 million in unused funds from prior funding years to the extent necessary to satisfy Funding Year 2020 program demand.⁵⁷ For Funding Year 2020, USAC will collect an amount equal to the Rural Health Care Funding Cap of \$604.76 million. This amount is inclusive of administrative costs.

RURAL HEALTH CARE SUPPORT MECHANISM SUMMARY

The 4Q2020 Rural Health Care Support Mechanism collection requirement of \$151.19 million represents one quarter of the cap for Funding Year 2020. The amount includes collection requirements for the Telecommunications Program, the Healthcare Connect Fund, and administrative costs. CONNECTED CARE PILOT PROGRAM

On April 2, 2020, the FCC issued Order FCC 20-44, establishing the Connected Care Pilot Program within the USF, making an additional \$100 million available over three years to help defray health care providers' qualifying costs of providing connected care services, which focused primarily to low-income or veteran patients.⁵⁹ The Order authorized collections of \$100 million over three years (12 quarters) at \$8.33 million per quarter beginning in 4Q2020.⁶⁰ The Order states that the purpose of the Pilot Program is to examine how the Fund can help support the trend towards connected care services, particularly for low income consumers and veterans.⁶¹ The Order indicates that \$100 million funding for the Pilot Program will be separate from the budgets of the other existing universal service programs and directs USAC to separately collect funds for the Pilot Program.⁶²

CONNECTED CARE PILOT PROGRAM SUMMARY

The 4Q2020 Connected Care Pilot Program collection requirement of \$8.33 million represents one twelfth of the \$100 million collection requirement.

SCHOOLS AND LIBRARIES SUPPORT MECHANISM SUMMARY

On March 12, 2020, the FCC announced the funding cap for Funding Year 2020 of \$4,226.12 million.⁹⁷ This reflects a 1.8 percent inflation-adjusted increase to the \$4,151.40 million cap from Funding Year 2019.⁹⁸ The filing window for Funding Year 2020 closed on April 29, 2020. Based on applications received within the window, USAC estimates demand for Funding Year 2020 will be \$2,636.39 million (net of projected post window close adjustments). In consultation with the FCC, USAC projects that a total of \$500 million will be available to carry-forward to Funding Year 2020 from prior funding years as follows, 2000: \$24.27 million; 2001: \$3.07 million; 2003: \$1.85 million; 2004: \$1.08 million; 2005: \$3.04 million; 2006: \$3.73 million; 2007: \$2.50 million; 2008: \$2.00 million; 2013: \$0.63 million; 2014: \$0.38 million; 2017: \$100.67 million; 2018: \$284.52 million; and 2019: \$72.26 million (net of funds carried back to funding years with a negative carry forward balance). Based on the estimated demand of \$2,636.39 million, and funds carried forward of \$500.00 million, the collections requirement for Funding Year 2020 is \$2,136.39 million. The 4Q2020 collection requirement of \$534.10 million represents one quarter of demand for Funding Year 2020.

The net fund requirement of \$534.10 million is adjusted as follows: decreased by the prior period adjustments of \$2.37 million⁹⁹ and increased by \$21.35 million for
