## CONNECT AMERICA FUND PHASE II AUCTION SUPPORT AUTHORIZED FOR 459 WINNING BIDS

**AU Docket No. 17-182**  
**WC Docket No. 10-90**

By this Public Notice, the Wireline Competition Bureau (WCB), in conjunction with the Rural Broadband Auctions Task Force and the Office of Economics and Analytics, authorize Connect America Fund Phase II (Auction 903) support for the winning bids identified in Attachment A of this Public Notice.

For each of the winning bids identified in Attachment A, we have reviewed the long-form application information, including the letter(s) of credit and Bankruptcy Code opinion letter(s) from the long-form applicant's legal counsel.<sup>1</sup> Based on the representations and certifications in the relevant long-form application, we authorize support for the winning bids listed in Attachment A.

We will also soon post a state-level summary under the "Data" tab on the Auction 903 webpage at <https://www.fcc.gov/auction/903>. The summary will provide for each long-form applicant included in this Public Notice: 1) the total support amount over 10 years and total number of locations that the long-form applicant is being authorized for in each state, 2) the total number of locations to which the authorized support recipient must offer the required voice and broadband services for each performance tier and latency in each state, and 3) the eligible census blocks included in the winning bids that are being authorized in each state.<sup>2</sup>

Upon issuance of this Public Notice, the Universal Service Administrative Company (USAC) is directed and authorized to obligate and disburse from the Universal Service Fund the amounts identified in Attachment A to the long-form applicant associated with each study area specified in Attachment A. USAC will make disbursement payments to the account on file for the 498 ID associated with the study area code (SAC). The support will be disbursed in 120 equal monthly payments, which will begin at the end of this month.

Below, we provide a summary of the various obligations of authorized Auction 903 support recipients. This summary is not comprehensive. Each support recipient is responsible for conducting the due diligence required to comply with universal service fund requirements and the Commission's rules.

<sup>2</sup> An Auction 903 recipient that participates in the location discrepancy process may have its total number of locations and total support reduced. See *Connect America Fund, et al.*, Order on Reconsideration, 33 FCC Rcd 1380, 1389-90, paras. 23-26 (2018); *Wireline Competition Bureau Seeks Comment on Procedures to Identify and Resolve Location Discrepancies in Eligible Census Blocks within Winning Bid Areas*, Public Notice, 33 FCC Rcd 8620 (WCB 2018).

*Summary of Obligations and Relevant Dates.* The following dates are applicable to the long-form applicants that are being authorized for support by this Public Notice.

- **Annual reporting of location information.** Auction 903 support recipients are required to file location information with USAC through the High-Cost Universal Broadband (HUBB) portal.<sup>3</sup> This information includes geolocation data for each qualifying location to which they are offering the requisite service and the technology the Auction 903 support recipient is using to offer the requisite service to the qualifying locations. The requisite service is: at least one standalone voice plan and one service plan that provides broadband at the relevant performance tier and latency requirements at rates that are reasonably comparable to rates offered in urban areas.<sup>4</sup> The locations must be in the eligible census blocks covered by the long-form applicant's winning bids.<sup>5</sup>

The Commission has consistently encouraged carriers subject to defined deployment obligations and HUBB reporting obligations to report location data on a rolling basis and has adopted a best practice of filing this information within 30 days after the initial offering of service.<sup>6</sup> While reporting on a rolling basis is encouraged, the first deadline for the long-form applicants being authorized in this Public Notice to submit their location data is **July 31, 2020**.<sup>7</sup> Support recipients must continue to report this information on or before the last business day of each **July** in each subsequent year until all build-out requirements are satisfied. For more information about the HUBB portal and reporting location data, visit <https://www.usac.org/hc/annual-requirements/hubb.aspx>.

- **Service milestones.** An Auction 903 support recipient is required to complete construction and begin commercially offering service to 40 percent of the requisite number of the locations in a state by the end of the third year of funding and to an additional 20 percent in each subsequent year, with 100 percent by the end of the sixth year.<sup>8</sup> The service milestones for the long-form applicants authorized by this Public Notice are as follows:

By the last business day of the second calendar month following each relevant service milestone, an Auction 903 support recipient must file a certification in the HUBB portal that it has met its service milestone and is meeting the requisite public interest obligations.<sup>9</sup> Support recipients that are being authorized by this Public Notice must file their certifications in the HUBB portal by the last business day of each **July** following each service milestone.

If an ETC is unable to meet a service milestone, it must notify the Commission, USAC, and the relevant state, U.S. Territory, or Tribal government as appropriate, no later than ten business days after the applicable deadline.<sup>10</sup> If the ETC is unable to meet the required deployment obligations due to circumstances beyond its control, it may also seek waiver of the service milestones.<sup>11</sup> The Commission has repeatedly warned Phase II support recipients, however, that it does not expect to routinely grant such waiver requests, emphasizing the difficulty of demonstrating good cause under circumstances where carriers fail to plan for contingencies that would prevent compliance with defined deployment obligations.<sup>12</sup>

- **Annual section 54.313 report.** The long-form applicants that are being authorized by this Public Notice will be required to file their first annual section 54.313 report by **July 1, 2020** and each subsequent year until the year after their support terms have ended.<sup>13</sup> Annual reports are filed with USAC.<sup>14</sup> Support recipients must complete the FCC Form 481 on USAC's website.<sup>15</sup> They must also test and certify compliance with relevant performance requirements in section 54.309 of the Commission's rules.<sup>16</sup> WCB, the Wireless Telecommunications Bureau, and the Office of

Engineering and Technology have adopted a uniform framework to measure and report on the performance of ETCs' service.<sup>17</sup>

- **Annual section 54.314 certification.** The first annual section 54.314 certification is due for the long-form applicants that are being authorized by this Public Notice by **October 1, 2020**.<sup>18</sup> Pursuant to section 54.314 of the Commission's rules, if a support recipient was designated by a state, that state must certify on the support recipient's behalf "that all federal high-cost support provided . . . within that State was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended."<sup>19</sup>

If a support recipient was designated an ETC by the Federal Communications Commission, it must self-certify by filing a sworn affidavit executed by a corporate officer attesting to the relevant facts.<sup>20</sup> Certifications must be filed with both the Commission and USAC. ETCs may submit their certifications to USAC via its online filing system or by sending the appropriate certification sample letter (provided on USAC's website) via email or U.S. mail.<sup>21</sup> Certifications must also be submitted to the Commission's Office of the Secretary on or before **October 1<sup>st</sup>**. The submission should clearly reference WC Docket No. 14-58, ETC Annual Reports and Certifications.

We conclude there is good cause to waive on our own motion the general high-cost support program requirement that the relevant states (or the ETCs, if applicable) file a section 54.314 certification by October 1, 2019 with respect to the use of Auction 903 support.<sup>22</sup> When the Commission adopted the certification requirement, it made clear that it expected the states and federally designated ETCs to undertake a rigorous examination of the factual information provided in the annual reports required pursuant to section 54.313 prior to issuance of the annual certification.<sup>23</sup> In this instance, the Auction 903 applicants being authorized today did not receive Auction 903 support in 2018 and will not file an annual report with respect to those supported areas on July 1, 2019. Therefore, the state commissions and federally designated ETCs will not have the annual reporting information before them to provide an evidentiary basis for certifying that support will be used for its intended purposes in 2020 as required by the prospective section 54.314 certification due by October 1, 2019. State commissions (or the ETCs, if applicable) will

<sup>22</sup> Generally, the Commission's rules may be waived for good cause shown. 47 C.F.R. § 1.3. Waiver of the Commission's rules is appropriate only if both: (1) special circumstances warrant a deviation from the general rule, and (2) such deviation will serve the public interest. See *Northeast Cellular Tel. Co. v. FCC*, 897 F.2d 1164, 1166 (D.C. Cir. 1990) (citing *WAIT Radio v. FCC*, 418 F.2d 1153, 1157-59 (D.C. Cir. 1969), cert. denied, 93 S.Ct. 461 (1972)). We also waived the October 1, 2015 section 54.314 certification for rural broadband experiments recipients under similar circumstances. *Rural Broadband Experiment Support Authorized for Ten Winning Bids for Skybeam, LLC, Consolidated Communications Networks, Inc, Delta Communications LLC, and Allamakee-Clayton Electric Cooperative, Inc.*, Public Notice, 30 FCC Rcd 8283, 8284-85 (WCB 2015).

be required to certify support received in 2019 was used for its intended purposes when the section 54.314 certification is filed by October 1, 2020 and will be required to certify that support received in 2020 was used for its intended purposes when the section 54.314 certification is filed by October 1, 2021. Accordingly, we conclude that the Commission, USAC, and the states will have assurance that Auction 903 support that is disbursed in 2019 and 2020 is used for its intended purposes even if the relevant states or federally designated ETCs do not file the section 54.314 certification on October 1, 2019.

All post-designation ETC-related filings must be submitted in good faith and include a certification that, to the best of the ETC's knowledge and belief, the information is complete and accurate.<sup>24</sup> In addition, ETCs have an on-going duty to correct or amend information if they have reason to believe, either through their own investigation or upon notice from USAC, that the data are inaccurate, incomplete, or contain errors or anomalies.<sup>25</sup> The failure to timely file information may result in penalties in the form of a reduction in support.<sup>26</sup>

*Document Retention and Compliance Audits.* Under section 54.320 of the Commission's rules, recipients of high-cost support must retain, for at least ten years, all records necessary to demonstrate to auditors that the support received was consistent with universal service high-cost program rules and to make these documents available upon request to the Commission (and any of its Bureaus or Offices) and to USAC, and to their respective auditors.<sup>27</sup> In addition, all ETCs that receive high-cost support are subject to random compliance audits and other investigations to ensure compliance with program rules and orders, including verification of actual deployment to reported locations.<sup>28</sup>

*Consequences for Non-Compliance.* A support recipient is subject to non-compliance measures once it becomes a support recipient if it fails or is unable to meet its minimum coverage requirement or other service requirements, or fails to fulfill any other term or condition of Phase II support.<sup>29</sup> These measures scale with the extent of non-compliance and include additional reporting, withholding of support, and support recovery.<sup>30</sup> A defaulting support recipient may also be subject to sanctions, including, but not limited to, potential revocation of ETC designations and suspension or debarment.<sup>31</sup>

*ETC Obligations.* All Auction 903 support recipients were required to obtain a high-cost ETC designation prior to being authorized for Auction 903 support, and thus should be familiar with ETC

requirements. For example, all high-cost ETCs commit to serving the entire area covered by an ETC designation and must offer Lifeline voice and broadband service throughout such area to qualifying low-income consumers pursuant to the Lifeline program rules.<sup>32</sup> While an Auction 903 support recipient was not required to obtain an ETC designation that was limited only to the eligible census blocks covered by its winning bids, it may only use its Auction 903 support to offer the required voice and broadband services to locations in eligible census blocks. If an Auction 903 support recipient has obtained an ETC designation that covers more area than the eligible census blocks in its winning bids, that support recipient has the obligation to provide Lifeline services throughout its designated service area, including in areas where it cannot use its Auction 903 support.<sup>33</sup> A high-cost ETC may also be subject to state-specific requirements imposed by the state that designated it as an ETC.

*Discontinuance of Service and/or Relinquishment of Support.* It is a violation of Commission rules to receive universal service support if that support is not used to provide, maintain, and upgrade voice and/or broadband facilities and services in eligible areas or if the recipient is no longer offering supported services. A carrier that cannot appropriately use universal service support must relinquish its ETC designation pursuant to section 214(a) of the Act and section 54.205 of the Commission's rules.<sup>34</sup> The ETC must file a notice of relinquishment in WC Docket No. 09-197, Telecommunications Carriers Eligible for Universal Service Support, using the Commission's Electronic Comment Filing System (ECFS). WCB will release an order approving the relinquishment if the relinquishing ETC demonstrates that the affected area will continue to be served by at least one ETC.<sup>35</sup> The ETC must then send a copy of its relinquishment notice and a copy of the relinquishment order (within one week of its release) to USAC at [hcorders@usac.org](mailto:hcorders@usac.org). A carrier that intends to discontinue service must first seek authorization to discontinue service under section 63.71 of the Commission's rules.<sup>36</sup>

*Transfers of Control.* ETCs seeking to transfer control of their domestic authorizations to operate pursuant to section 214 of the Communications Act of 1934, as amended, or to engage in the sale of assets under section 214 must first receive approval from the Commission in accordance with sections 63.03 and 63.04 of the Commission's rules governing the procedures for domestic transfer of control/asset applications.<sup>37</sup> Transfers of control and assignments of international section 214 authorizations are separately subject to section 63.24 of the Commission's rules.<sup>38</sup> More information is available on the Commission's website at <http://www.fcc.gov/general/transfer-control>.

*Price Cap Carrier Obligations.* Price cap carriers that serve the census blocks where an Auction 903 long-form applicant that is not the incumbent price cap carrier has been authorized to receive support will no longer have a federal high-cost ETC obligation to continue to offer voice service in those census blocks pursuant to the forbearance granted in the *December 2014 Connect America Order*.<sup>39</sup>

---

<sup>32</sup> See 47 CFR §§ 54.101(d), 54.405(a); 47 CFR Subpart E.

<sup>33</sup> For example, some Auction 903 support recipients may have obtained an ETC designation for an entire census block group(s) that was covered by its winning bid(s) but may only use its Auction 903 support to offer service to locations in the eligible census blocks within the census block group(s).

<sup>38</sup> 47 CFR § 63.24.

<sup>39</sup> In the first month that support is disbursed to an authorized Auction 903 support recipient that is not the incumbent price cap carrier, the incumbent price cap carrier will be immediately relieved of its federal high-cost ETC obligation to offer voice telephony in those specific census blocks. *December 2014 Connect America Fund Order*, 29 FCC Rcd at 15663–71, paras. 50–70; see also 47 CFR § 54.201(d)(3). We will remove these census

*Transitioning Legacy Support.* WCB will soon update the list of census blocks where incumbent price cap carriers will continue to receive legacy support by removing the eligible census blocks that are covered by the winning bids in Attachment A.<sup>40</sup> Incumbent price cap carriers will no longer receive legacy support in the eligible census blocks covered by the winning bids in Attachment A beginning on the first day of the next month.<sup>41</sup> Additionally, in all census blocks determined to be ineligible for Auction 903, incumbent price cap carriers that declined statewide model-based support will no longer receive legacy support starting the first day of the next month.<sup>42</sup>

Beginning on the first day of the next month, fixed competitive ETCs' legacy support will be subject to a two-year phase down.<sup>43</sup> Fixed competitive ETCs will receive phase-down support equal to two-thirds of their total legacy support for the first 12 months.<sup>44</sup> For the following 12 months, fixed competitive ETCs will receive one-third of their total legacy support.<sup>45</sup> All legacy support will end thereafter.<sup>46</sup>
